Q: Reticular and Eccentricity of a Circle Find the minimum value of the radius of the circle which lies inside of the triangle ABC with the vertices A(0,0), B(4,2), C(2,2). Is my approach ok: A: Step 1: You can have circles of different radii, but the minimum radius must be 2 . Step 2: $\frac{4}{2}=2$. Step 3: If r is the radius, then $\frac{1}{2}r=2$ so $r=2$.

Bioencapsulation of *Lactobacillus paracasei* subsp. *paracasei* using chitosan. In this study, *Lactobacillus paracasei* subsp. *paracasei* was bioencapsulated in alginate-chitosan biopolymer by the self-cross-linking method. The cell density, viability, encapsulation efficiency, and anti-listerial efficacy were evaluated. Chitosan coating allowed an improved the coating efficiency and could significantly reduce the adhesion of the cells during the formulation process. The cell density of the encapsulated

cultures with different types of chitosan coating showed no significant difference. However, the viability of the encapsulated *Lactobacillus paracasei* subsp. *paracasei* was significantly higher than
