About This Game

World conspiracy or UFO attack? It's up to you to decide what to believe.

One of the superpowers is developing the newest modern weapons of the 25th generation. A lot of scattered laboratories are working on this weapon.

Many countries were killed by an alien invasion - so they will say in the news.
But you and only you know that this is all a conspiracy.

You are an adept and a senior officer. You control the newest weapon, you are given an order, to destroy the countries disagreeable to your state. Destroy everything in its path. Let people think that they were attacked by aliens, let them build their armies in defense against aliens and spend huge money to protect their borders.

Only your country should become the most powerful.

Control the space ship, destroy everything in its path.

Loved the whole Doorways series. Found it all very challenging especially Holy Mountains of Flesh. As I am not that great at jumping across platforms it took me a long time to finish the game but so satisfying to finally finish it.. 1 track - 2 heats.... Cant ride custom riders, no timetrial - This DLC is so thin, not worth the money!. Don't buy it, just don't. Developers haven't made an update in months and they won't even talk to the people that bought their ♥♥♥♥♥♥ unfinished game. Stay away.. bought on sales with \$5, worth it, watch until episode3 so far, love the video so much and the enjoyed to played the jam game as well. there are some uncut and deleted scene as well, :D. Very fun! Always new ways to try and hide and confuse the shadows. Once you become a shadow it is a great time to seek out everyone and occasionally scare them! I'd say get some friends and play some! The devs may even jump into a game and teach you a thing or two!

I picked this game up during one of Steams sale events. This was an impulse buy as I did no research on this particular game. Had I done so, I would have found out that this game is an online multiplayer game to that of which the multiplaying community is dead. I am sure I did not spend a lot of money on this game, but still was a little let down to see that it was dead.

The graphics are nice and the gameplay mechanics seemed fine. I wish I could offer up a little more information on this product. However, it really doesn't matter... the community for this game is dead. The only reason to pick this game up is if you and your friends would like to play it as part of a LAN party or you have all the games you could want and want to blow money so now you are just adding games to grow your Steam collection.. this game is a POS YOU CANT CONTROL YOUR BIKE AND THE BRAKES DONT WORK GOOD ENOUGH IM REALLY SORRY I SPENT MONEY ON THIS (POS GAME). Considering it didn't add more 'features', it certainly felt different from the main game.

6.5 V 10. Best game of 2018! PUBG is NOTHING if you "compare" this masterpiece of gem!

Must have for every true slave under the sun!. I have yet to finish this game, but I guess I need to save its life by giving it a positive review now, because it's pretty darn good. I'm enjoying it very much. It's not perfect - it has a few problem but they're not dealbreakers.

Also, about the "YOU" feature. I don't know if the developers know what info you're filling, but you can always call yourself "Ronald McDonald" and upload a photo of him or something if you're worried. Nothing is stopping you from doing this. Play it!. It's the♥♥♥♥♥♥♥♥

10.32/10. Essentially an Indie Burnout. Car selection is practically non existent but knowing the budgets of these small studios, it's not an issue since the game is fun and more importantly, keeps you playing. Multiple modes with an interesting strategical mechanic of applying your Burnout points towards your final time. 99 cents.. this game blows♥♥♥♥♥♥♥♥because you cant play online with friends. I wish this game was longer, but despite the length it was fantastic. The story lines were entertainer and the artwork was just beautiful! We need more vampire games like this one.
