### **The anime special episode: Ocrest**

Every story has a beginning... For WAKFU, it all started when the World of Twelve got drowned in the tears of a despaired ogre. Nowadays, Ocrest has become a terrible legend and the Ultimate quest for the adventurers of WAKFU. But if you knew how it all started...

On a faraway island, Otomai carries out yet another magical experiment... which fails! Well, it's not a complete failure, as it produces Ocrest, a very special baby! Boasting incredible strength and an equally huge appetite, this little ogre will learn very quickly that he is different from other children. Wandering alone one day, he meets Dathura, a Sadida doll, and it's love at first sight! Unfortunately, his new love falls victim to an evil that plunges her into a deep sleep. Listening only to his heart, Ocrest sets off on a search for an antidote!

#### **60 days of Booster Adventure:**

- +30% XP at the end of fights and quests
- +10% chance of getting more items at the end of fights
- +30% of Kamas at the end of each fight
- Be the first to access new content
- Your secondary characters gain experience faster
- Fill your life gauge with one click
- Vote during the elections for governor of your country

This Booster Pack will only be valid for characters on the server you chose at the time of activating the code.

#### **Little Ocrest Haven Bag Kit:**

Each player has a personal, portable home called a Haven Bag. They can decorate it as they like, invite friends inside and sell items from its shelves.. Players can also plant, grow and harvest all WAKFU's plant species inside their Haven Bag.

#### **Revival Costume:**

An outfit to put spring in your step!

#### **Sadida bedroom set**

-10 decoration items based on the Sadida class.

wakfu ocrest anime pack

Opened game

Got every achievement by opening the game

11/10

. The game is simple and essential, but that's indeed the reason it catches the most fundamental core of the RPG genre: choices are all that matter. With just six stats for your character, which never get in your way obtrusively, thus increasing the immersion of the player, the game manages a good set of events and their consequences. I find this game a beautiful example of role-playing at its essential, akin to those playing books of old. The story is short, but intense, the only defect of the game being the authors having been perhaps content with exploring in depth the royal branch of the story.. I have to say i really like the game. It's like hearthstone but you get to move the minions around the field and strategies way moore. I like the graphics and i like the whole concept of the game. There is only a couple of things, it's seems like if the other player gets ahead with something like 10 points it's really hard to comeback so the game is basically over at that point. Also it needs more cards, and i do hope they will add some as free DLC or something.. Start by building an office then drop 4 workers at their desks. A plant and a soda pop machine will keep them happy. Plop down an elevator when you're ready to build higher.

Now it's time for you to act like a BOSS! Sit back in your chair and say things like "Let's go people, I wanna hear some typing going on. Let's make some noise! Isn't Frank back from lunch yet? We can't make no money if you people ain't at your desks! Do you know how much money this company had when you all came in here this morning? Minus 27 dollars! MINUS! Do you know how much money that plant cost that you all like to look at all day? \$1800 dollars. That's right. This is what we're working for, people. So let's see some enthusiasm here.

Janet, I'll need that report on my desk before you go on your little smoke break. And listen up everybody - the soda pop machines are for everybody, but I don't want you people congregating around them all day. Can you guys downstairs hear me? I can't be everywhere at once, so I wanna see some productivity outta you guys down there. George, I'm only seeing single digit numbers flying out of you, let's shape it up there buddy.

I don't think you people realize just how close we are to declaring bankruptcy. I have a button - it's an actual Bankruptcy Button. I could push it at any time and put you all out on the street without a job. Karen, put the soda pop down and get back to your desk. Okay people let's go! Let's make today the day we do one hundred and twelve percent!". she packed my bags last night, pre♥♥♥♥. Pretty good for it's price, the music and retro look are quite nice, also the game opening and exit are really cool. The game itself was a bit confusing at first, and involved quite a bit of trial and error to figure out what eveything does, it's a cool concept for a puzzle and it requires using your brain a bit (which i failed at).

If you have a dollar to spare and need to entertain yourself for ~1hr then this is for you.

PD: Funny how you advertised your game on the \ud83c\udfa7\u2605\u2605 Synthwave - Retrowave - Retro Electro Livestream \u2605\u2605\u2605\ud83c\udfa7 lol, guess it worked. gotta get your target audience somehow.

It's really a shame, this game had potential but the way it was executed ruined it. The game was more frustrating than fun and the reason being:

- grinding excessively
- crafting new weapons and building your base to the max could of been fun if it was easier to find specific items and not just have things randomly drop from enemies or chest/breakable object.
- The map rearranges itself everytime you die or quit the game.
- This game needed a simple castlevania back dash to avoid enemy attack but instead your given a foward dash which only helps you progress faster through the room.
- most of the main and side mission were about finding items, certain mssion also required me to find blueprints and upgrade.
- Certain doors\shaft are locked which require a key to open them but if you die the map rearranges itself, forcing you to find the key again.

Its been a awhile since I encounter a game that truly me off, I should of stopped playing after 2 hours but I gave it too much of a chance.. A few hours into the game and so far I am mostly pleased. Plenty of variety of charcters with individual traits, strengths and weaknesses give this game good replay appeal. I like that you can cutomize your main character by name, gender & even sexual orientation plus you can comprise your party with just about any combination you like.

Not much backstory at the start but it develops quickly and is interesting enough. Decent RPG elements, music and pop culture references keep it lively. Sometimes the narration can be a bit wooden but other than that I am looking forward to exploring this game more.. Fun. Interesting. Challenging. Frustrating. Satisfying. Everything you'd want in a puzzle game. ;)

No tutorial, but you learn as you go.. This game features an interesting mechanic which requires you to place robots in an effort to mine peaches. The robots will extend each other's range and help each other much in the same friends would if I had any. By playing this game I hope to make a friend and then use them to mine resources for me.

All in all a fun little game, would recommend.. A fun, quick game! Not much to it, which isn't bad, but not for those who are looking for a lengthy game. Very nice background scenes going on throughout the game as well! :D. A game that is fun to play and also a guide how to talk to not only to women but also to people that want to have friends. I had a lot of fun in this game and I also taught something new about how to interact with women.

I would recommend this game to someone who wants a "girl of his life" or simply to someone who wants to have just fun because some choises in the game are very funny.. Cute, fun old school platformer.. Book 2 of 3. Please send help, this book is terrible.

Similar mechanics to Book 1, but this time the story is tedious at best, and non-existent at worst. The whole story (and this isn't a spoiler DW) is set around a reality TV show, and the characters act completely contrary to rationality, and don't follow any character development from the previous book.

This is A BOOK, similar to the old R.L. Stine pick-a-choice books.

If discounted, get it only so you can progress to Book 3.. One of the best webseries I ever saw.. Shoe Throwing Simulator 2
